LED Standard Spots

Functional or decorative – tailored to your
installation requirements

LED Standard Spots – Lighting solutions for ceiling, wall or niche

SBF develops and manufactures LED standard spots for various installation positions in vehicle interiors. The luminaires are suitable for ceiling, wall or niche installation and can be individually adapted depending on the installation situation. They are available as functional lighting or decorative illumination – in various light colors and optionally with a bezel or light guide.

The design is tailored to the demands of vehicle interiors: energy-efficient, durable and low-maintenance. The luminaires comply with all relevant rail industry standards.

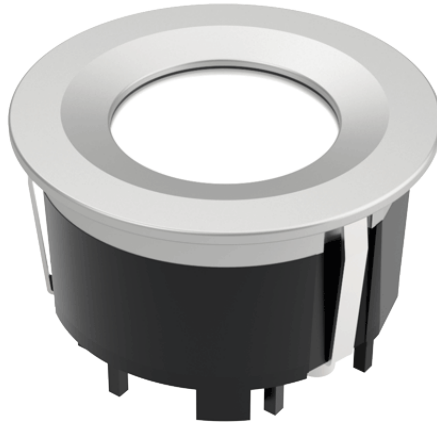

Advantages at a glance

- Suitable for installation in ceiling, wall or niche
- Available as functional or decorative lighting
- Choice of various light colors
- Optional with bezel or light guide
- Components compliant with EN45545, EN50155, EN50121 and EN61373
